

ID	ZONE	ZONE_DESC
1	1	1- nearly level, thick topsoil, very high production
2	2	2- nearly level, medium topsoil, high production
3	3	3- gently sloping, medium thin topsoil, medium-high production
4	4	4- gently sloping, thin topsoil, medium production
5	5	5- strongly sloping, thin topsoil, medium-low production
6	6	6- swale position, thick topsoil, very high production
7	7	7- floodplain position, thick topsoil, very high production
8	8	8- somewhat poorly drained alkaline soil, medium production
17	17	17- depressional soil, thick topsoil, high production
16	16	16- gently sloping, shallow to gravels, very low production
9	9	9- strongly saline soil, very low production
10	10	10- saline soil, low production
11	11	11- very shallow claypan soil, low production
12	12	12- shallow claypan soil, medium production
13	13	13- moderately deep claypan soil, high production
14	14	14- deep to gravel soils, medium production
15	15	15- moderately deep to gravels, low production
18	18	18- depressional soil, dense claypan, medium production
19	19	19- sandy soil
20	20	20- clayey soil, medium topsoil, high production
21	21	21 - nearly level to gently sloping, saline subsoil, medium production
22	22	22 - poorly drained shallow claypan soil, medium production
23	23	23 - somewhat poorly drained, clayey, depressional soil, high production
23	24	24- gently sloping, thin topsoil, high salt, low production
